EDUCATION

Vellore Institute of Technology, Bhopal

2023 – 2027

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.55/10.0

EXPERIENCE

Data Analytics Intern, Ordnance Clothing Factory (OCF), Shahjahanpur

May 2026 – July 2026

Ministry of Defence Summer Internship Program

Shahjahanpur, India

- Chosen among undergraduate applicants nationwide for a Ministry of Defence-sponsored internship focused on data-driven textile defect detection and quality analytics.
- Analyzed production-line fabric inspection data and built CNN-based classification pipelines to detect tears, stains, stitching defects, and color inconsistencies, reaching **75% classification accuracy**.
- Collaborated with defense production engineers and QA teams, using Grad-CAM visualizations and data storytelling to translate model outputs into deployable, production-ready inspection workflows.

PROJECTS

HR Dashboard — Interactive HR Analytics Dashboard [GitHub] | *Python, Dash, Plotly, Pandas, Power BI* 2026

- Built a multi-page interactive HR analytics dashboard using Dash, Plotly, and Pandas to track headcount, gender distribution, promotion eligibility, and retrenchment forecasts.
- Designed a companion Power BI dashboard on employee data to surface job-role trends and actionable workforce insights for decision-makers.
- Structured raw employee datasets into clean, queryable formats and built responsive summary cards, donut charts, and bar charts for at-a-glance reporting.

PrepAI — Data Preprocessing & ML Visualization Toolkit [GitHub] | *Python, Flask, Scikit-learn, SHAP, Plotly* 2026

- Built an end-to-end web toolkit that automates dataset cleaning, missing-value imputation, encoding, feature scaling, and outlier detection for ML-ready data.
- Developed an ML Visualizer module generating confusion matrices, ROC/precision-recall curves, feature-importance (SHAP) plots, and learning curves to aid model interpretability.
- Created the DataVista analytics dashboard with exportable KPI reports (PDF, CSV, PNG), deployed live for public use.

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, SQL

Data Analytics: Pandas, NumPy, Power BI, Dash, Plotly, EDA, Data Visualization

Machine & Deep Learning: PyTorch, TensorFlow, Scikit-learn, Keras, CNNs, RNNs, LSTMs, Transformers, Attention Mechanisms, Transfer Learning

NLP & LLMs: BERT, DistilBERT, HuggingFace Transformers, Embeddings, Text Classification, Sequence-to-Sequence Modeling

Tools & Deployment: Git, Docker, Streamlit, OpenCV, NLTK, Gensim

ACHIEVEMENTS

- Selected for OCF Shahjahanpur Summer Internship Program 2026 focused on AI-based defect detection for military clothing fabric.
- Reproduced the “Attention Is All You Need” architecture, including Multi-Head Attention and Encoder-Decoder training pipelines.
- Successfully completed Level 1 of the GenAI Explorer track in Deloitte Hacksplasion.
- Qualified to Round 3 of Flipkart Grid 8.0.
- Solved 350+ algorithmic problems on LeetCode.
- IBM AI Engineer Professional Certificate & NPTEL Introduction to Machine Learning.

ADDITIONAL

Languages: Fluent in Hindi, English, and Urdu

Interests: Competitive Programming, Open Source Contributions, Badminton, Football
